2022-present

Sant Singaji Institute of Science and Management

### Higher Secondary Certificate

2021-2022

CM Rise School

## PROJECT'S

- **WareHouse Management System**

Frontend Developer Intern at Singaji Software Solution

Our Warehouse Management Project boasts a user-friendly interface with real-time updates, optimizing inventory tracking, order management, and user security. The system's responsiveness and robust reporting features enhance operational efficiency, providing a modern and scalable solution for effective warehouse management. Technologies :Html , Css , Bootstrap , React

- **Rental House And Travel Website**

Frontend Developer

I developed a responsive web application using HTML, CSS, Bootstrap, and JavaScript, allowing users to explore and rent houses seamlessly. The project showcases my proficiency in front-end development and user interface design, demonstrating my ability to create engaging and functional web experiences.

- **Library Management**

Academic Project

A college library management is a project that manages and stores books information. Electronically according to students needs. The system helps both students and library manager to keep a constant track of all the books available in the library .It allows both the admin and the student to search for the desired book.
